The Department of Civil and Environmental Engineering (CvEEN) at the University of Utah is dedicated to helping students get through College in a timely manner. Scholarships are offered to freshman, transfer, continuing undergraduate, new graduate and continuing graduate students.

For the 2014-2015 academic year the Department of Civil & Environmental Engineering and the College of Engineering offered over $1.5 million dollars in scholarships to students in Engineering. The scholarships ranged from full tuition waivers, partial tuition waivers, book money and cash. The scholarships are divided between Fall and Spring Semesters.

Scholarship applications are done electronically and can be accessed through the Department web page: www.civil.utah.edu; you then go to the appropriate level of education that you will be seeking and then clicking on the Financial Aid and Scholarships page. By completing the Department application you will be considered for all College of Engineering scholarships and Civil & Environmental Engineering scholarships that you qualify for. On this website, you will also have access to the University of Utah Financial Aid & Scholarship website.

A completed scholarship application will include a personal statement, two letters of recommendation, resume, and transcripts from all colleges and high schools attended (high school only for students who have taken less than 24 credit hours at a college). All of these documents are required for an application to be complete. The scholarship deadline is February 15th with the application available in December 1st.

If you have any questions about the Department of Civil & Environmental Engineering Scholarships please contact Alexi Crabb at acrabb@coe.utah.edu, or 801.581.6931.
