The Department has created an Articulation Guide that lists all the courses you can take at other in-state schools that will transfer directly in the program. In addition, the Department has created a Flow Chart that lists all the courses that are required to complete a degree in Civil Engineering. Both of these guides can be found on the CvEEN web page www.civil.utah.edu.

The most critical courses to take at other University's are Calculus I, II, and III (MATH 1210, 1220, 2210), Physics for Scientist and Engineers I (PHYCS 2210), Intermediate Writing (WRTG 2010), Statics (CVEEN 2010) and Strengths (CVEEN 2140) because they are prerequisites for most of the more advanced engineering courses.

When you are ready to transfer up to the University of Utah you will need to complete the Admissions Application. This application can be found online at www.sa.utah.edu/admiss. Once you have been accepted to the University of Utah you will need to sign up for a Transfer Orientation and meet with the Academic Advisor. If you are ready to claim Intermediate or Major status, you will need to complete the Department's form called, Advisor Request. By completing this form and submitting it to the Academic Advisor, you will be assigned a faculty advisor. Once you have your advisor, you can contact them to schedule a transfer meeting. When you are trying to schedule an appointment with your advisor please contact them at least two weeks before you would like to meet.

Before you meet with your faculty advisor, you will need to go to the CvEEN web site and become familiar with the requirements to obtain Intermediate and/or Major status. When you meet with your faculty advisor you will need to bring the form that corresponds to the status you feel that you have earned. With the form you will need to attach a copy of your Degree Audit Report (DARS), which you can obtain by logging into the Campus Information System (go to Utah.edu and under the students tab click Campus Information System). If you need to petition for a course you may bring the petition form and the supporting materials when you meet with your faculty advisor.

If you have any question on transferring please contact Amanda May, Academic Advisor, amandam@civil.utah.edu and (801) 581-6931 or Dr. Pedro Romero, Director of Undergraduate Advising, romero@civil.utah.edu and (801) 587-7725.
