TECHNICAL ELECTIVES

Students must fulfill 6 technical elective requirements, ensuring they meet the following sub-criteria:

1. Complete at least **one** course in **4 of the 6** different areas within Complex Engineering.
2. Complete at least **two** design courses from **different areas**. These are designated by a **shaded box**.

As long as these requirements are met, students have the flexibility to choose the remaining **two** technical electives from either section.
